OUR PREMIUM POWDERS

01

MORINGA POWDER

This Superfood derived from Moringa oleifera leaves is highly nutrient-dense, offering exceptional levels of vitamin C, calcium, and all essential amino acids. It supports immunity, helps reduce inflammation through antioxidants, aids in blood sugar regulation, improves digestion, and promotes healthy skin. Ideal for dietary supplements, functional foods, and nutritional beverages.

02

SPINACH POWDER

Spinach Powder is made from fresh spinach leaves that are carefully dehydrated and finely ground to retain natural color, flavor, and nutrients. It is widely used in soups, sauces, seasonings, bakery products, health foods, and instant mixes. Available with excellent solubility, long shelf life, and hygienic processing standards.

03

ALL GRAVY MIX POWDER

All Gravy Mix Powder is a ready-to-use blend of selected spices, dehydrated vegetables, and seasonings for preparing rich and flavorful gravies instantly. Ideal for restaurants, food manufacturers, catering services, and ready-to-eat food applications. Ensures consistent taste, aroma, and convenience in every batch.

04

TOMATO POWDER

Tomato Powder is produced from premium-quality ripe tomatoes that are dehydrated and processed into a fine powder. It offers natural tomato flavor, vibrant color, and excellent shelf stability for use in soups, sauces, snacks, seasonings, and instant food products.

OUR PREMIUM POWDERS

05

ONION POWDER

Made from carefully dehydrated fresh onions, this powder is rich in antioxidants such as quercetin, along with potassium, iron, and vitamin C. It supports immune health, helps reduce inflammation, aids blood sugar balance, and promotes gut health through natural prebiotic fibers. Widely used in seasonings, soups, sauces, snacks, spice blends and food products with a long shelf life.

06

MINT POWDER

Mint Powder is made from carefully selected mint leaves that are hygienically dried and finely milled to preserve their fresh aroma and flavor. Commonly used in seasonings, chutneys, beverages, sauces, and herbal food preparations. Known for its refreshing taste and long shelf life.

07

GARLIC POWDER

Garlic Powder is processed from high-quality fresh garlic cloves and dehydrated under controlled conditions to maintain strong aroma and flavor. It is extensively used in spice blends, snacks, sauces, processed foods, and ready-to-cook products. Offers convenience, uniform taste, and excellent storage stability.

08

GINGER POWDER

Ginger Powder is manufactured from fresh ginger roots that are carefully dried and finely ground to preserve their natural pungency and aroma. Suitable for use in beverages, bakery products, seasonings, health foods, and traditional food preparations. Hygienically processed with superior quality and extended shelf life.

09

BEETROOT POWDER

Beetroot Powder is made from fresh, high-quality beetroot that is carefully dehydrated and finely ground to preserve its natural color, flavor, and nutrients. Widely used in health drinks, bakery products, seasonings, nutraceuticals, and food coloring applications. Known for its rich nutritional value, vibrant color, and long shelf life.

10

AMLA POWDER

Amla Powder is processed from premium-quality fresh amla fruits that are hygienically dried and finely milled to retain their natural properties. Commonly used in herbal products, health supplements, beverages, and traditional food preparations. Rich in natural vitamin C with excellent purity and storage stability.

11

JAMUN POWDER

Jamun Powder is prepared from carefully selected jamun fruits that are dehydrated and processed into a fine powder under hygienic conditions. Widely used in nutraceuticals, herbal formulations, beverages, and wellness products. Appreciated for its natural flavor, nutritional benefits, and long shelf life.
